BUYING VS. LEASING A CAR

There are so many decisions involved in getting a new car. Between choosing color, the brand, accessories, and much more, there are dozens of decisions you must make. The biggest is whether to lease or buy the car. Everyone's needs and wants are different. Here we share a few pros and cons of each.

- Buying a car means that it is yours, and you can customize and drive it as much as you'd like
- If you purchase a car, you are the one responsible for long-term repairs and maintenance
- Leasing a car makes for more affordable monthly payments and less money upfront
- Leased cars have a mileage limit, and going over the limit results in penalties. Insurance costs are typically higher for leased vehicles
